PERSONAL BRAND GUIDELINES

# Brand Kit.

The colors, type, voice, and visual rules that make the Jasmine Delana brand unmistakable — and a template you can rebuild for any brand.

# Where strategy meets **soul.**

Jasmine Delana is a brand strategist, marketing executive, and storyteller who lives at the intersection of faith, strategy, and narrative. The brand is bold, editorial, and high-contrast — neon on black, nothing wasted, every word earning its place.

## PERSONALITY

CONNECTOR

CHALLENGER

ENTERTAINER

Makes everyone feel included — and disrupts comfortable assumptions, with love. Bridges the boardroom, the pulpit, and culture without apology.

# The wordmark.

Jasmine.

Jasmine.

Jasmine.

## DO

- Keep the neon period — it is the signature.
- Give it generous clear space.
- Use on black, white, or neon backgrounds only.

## DON'T

- ✗ Recolor the wordmark or drop the period.
- ✗ Stretch, skew, or add effects.
- ✗ Place on busy photos without a scrim.

# The palette.

One electric accent. A deep near-black base. Bone-white type. Restraint is the brand — the neon only works because everything around it is quiet.
